

Notice for empanelment of NGOs for SVEP implementation

This is to inform all that a special drive to empanel NGO's for SVEP implementation in states has been launched.

This drive is to address the need to associate with various NPO's, who are capable of delivering the programme in the blocks, supported by the respective SRLM's in the states. They will also have all the support from the NRLM and the NRO's.

We can understand that the few NRO's we have empanelled, may not be enough to cover all the desired 125 blocks in 24 states and bring up 1,82,350 rural enterprises generating employment for 3.78 lacs of people.

The URL for NGO empanelment is: <http://ngo.ediindia.org/>

The **steps** would be:

1. Apply for organisation registration and obtain **registration ID**
2. Upload the required documents for verification and appraisal of claims
3. Apply for the states where the NPO / NGO wants to work, using the registration ID earlier generated. Apply separately for different states and obtain application specific unique **application ID**. One organisation with one registration ID can apply for multiple states and obtain multiple application ID.

The applicants will go through desk verification and appraisal followed by field verification and appraisal before finally being empanelled.

Thanks and regards,
